

EVA2400 – Series

2400W

- Build in model:** No front-panel or display
- Interface:** RS232/RS485, analog
- Cooling:** Variable speed fan
- Output:** Constant voltage, constant current with automatic crossover

Output power:	2400W
Input voltage:	Single-phase 170 – 265Vac, 47 – 63Hz
Output voltage:	150, 300, 600Vdc
Efficiency:	Up to 88%
Warranty:	5 years
